Lübke & Vogt is a specialist in small, technical molded parts made of all elastomer materials. The dimensions of our products range from the size of a match head to the size of a matchbox. Our main product groups are seals, grommet, switch caps, grommets, buffers, dampers/plugs, special parts for special applications, balls and 2K parts.

Our expertise covers the entire value-creation chain from planning and consulting, development and production of rubber compounds and mold construction to series production and delivery of molded parts in large quantities.

We currently manufacture about 1.8 billion high-quality molded rubber items per year at our site with 400 employees in Sundern, Germany, and supply them to about 2,000 customers in more than 50 countries on all continents. Three further locations in the United States, as well as in Russia and France, support our worldwide sales.

Certification:                   DIN EN ISO 9001:2008  
  IATF 16949:2016  
  DIN EN ISO 14001:2009  
  DIN EN ISO 50001:2011
