

Press Release

More Than 750 Companies Exhibit at the IZB 2014

The Exhibitor Database Is Now Online

Wolfsburg, 3rd July 2014. More than 750 companies will exhibit their products and services at the International Suppliers Fair 2014 in the German city of Wolfsburg. Interested parties can now find information and an overview of the exhibitors from 29 nations who have signed up for the IZB at www.izb-online.com/Online-Marktplatz. At this year's trade fair, product groups have been introduced for the companies for the first time, making the search more precise and effective. The exhibitors include around 50 companies from this year's partner region ASEAN. In addition, eight of the world's ten highest-volume automotive supplier companies will showcase their products and services, including companies such as Robert Bosch GmbH, Continental AG, Denso and Magna International.

The range of data and information available in the IZB Exhibitor Database enables visitors to the trade fair to effectively prepare their time at the IZB in October in advance. Alongside general details such as company names and addresses and exhibitors' hall and stand numbers, the database also contains the names of exhibitors' IZB representatives, who can be contacted with concrete enquiries or to book appointments.
