

PRESS RELEASE

## IZB 2022: Automotive innovations attract visitors

Wolfsburg, 12th October 2022. In what direction is vehicle mobility heading? Starting from yesterday, the exhibitors at the 11th International Suppliers Fair (IZB) in Wolfsburg are showcasing their answers to this question. This year's event is focusing on increasingly digital solutions for vehicles and for development, production and logistics processes. On the first day of the trade fair, a multitude of visitors from Germany and abroad and representatives from the worlds of business and politics and from associations and organisations were provided with an impressive insight into the diversity of automotive suppliers exhibiting on the communication and business platform for the industry.

At the IZB, interesting discussions and presentations such as the Tech Talks, live demos and prototype presentations are creating the perfect setting for an exchange of ideas and experiences between suppliers and manufacturers. The doors of the 11th IZB in the Allerpark in Wolfsburg are now open to visitors daily from 10am to 6pm until 13th October.

More information on the IZB 2022 can be found online at [www.izb-online.com](http://www.izb-online.com).

**Caption:** On the first day of the IZB, visitors to the trade fair included representatives from the Boards of Management of Volkswagen AG and the Volkswagen Brand, headed by the Chairman of the Board of Management of Volkswagen AG, Oliver Blume (second from left); Dr Michael Steiner (third from left), Member of the Executive Board Research and Development at Porsche AG; Murat Aksel (third from right), Chief Purchasing Officer Volkswagen Group; Dr Christian Vollmer (second from right), Member of the Board of Management of the Volkswagen Brand responsible for Production and Logistics, and Thomas Schäfer (right), Member of the Volkswagen AG Board of Management and CEO of the Volkswagen Passenger Cars Brand.
